FILE HEADING

Transfer of provision for masters from one School to another maintained from State Funds

From The D.I. of Edn. in Mysore

No 11155/S2C Dated 21/6/11 Received 23/6/11

Diary No 5796 Enclos spare Copies Serial No 1

BRIEF ABSTRACT OF LETTER

Forwards certain correspondence between himself and the Commissioner regarding the transfer of provision from one ~~School~~ School to another and requests that the existing arrangements under which the Dept has been making such transfers may be continued

NOTES AND ORDERS

The correspondence relates to the transfer of the provision of Rs 12 from the School at Hyagalavu in Madhugiri Tk to Achanhalli in Pavugada Tk instead of a place on Rs 10. This alters the Scale of the

a provincial scale has been fixed this may save the Calcutta Defalcation case lead to trouble later on. Moreover a provincial scale will be useful to Govt when there is no objection to permit interchange of teachers as the pupils could watch the pays made month by month against a scale register maintained for the purpose

Hosely 6-7-11

(6) A C I.R.D. for favour of a note on DI's suggestion

W 6/7

(7) The audit office note explains how in the absence of a fixed scale either school-wise or provincial the audit is not as satisfactory as it may be. The education Deptt in this State is the worst sinner in the matter of scales. In the case of higher grades it does not matter because there is personal audit. In the case of lower grades the absence of scale check may result in a larger number of men being entertained and paid for than what has been properly sanctioned

(8) I do not think that the difficulty of

fixing & working up to a school-wise scale can be insperable or even great All that will be required is that when a teacher ~~from~~ in one school becomes an absentee, his post should be filled up by an outsider or another teacher on the same pay or on lower pay appointed to act for him. In rare cases when a disturbance in the scale of a permanent nature is inevitable the change should be formally done & intimated to the audit office. The Dy may be given powers to sanction proposals of this kind when no extra cost is involved. In the interests of efficient audit it is absolutely necessary that this shd be done

Secretariat

The Summary of the 7th Letter
recorded and I am
precluded from writing
anything more (under the
rules) - A practical way
out of the difficulty is as
follows -

(1) Dy Cmrd to be
empowered to Sanction
propn Statements himself
and send a Chq to Compr
when an interference in
scale is necessary and
when Extra Cost to
Govt is not involved

(2) Once a quarter he shall
report what the changes
he has sanctioned under
the above delegated
authority so that
Govt may see that he
has not made transfers
unnecessarily

(3) Changes involving Extra
Cost to Govt, to be sent
to Govt for Sanction

This will I think meet the

works of all — &c
will have a free
hand to make
transfers and
Comp'r are have
a school scale & can
work according to
a proximal scale &
objection able in
more ways than one
I am very certainly
the above rules
Brunel to be adopted
if unobjectionable

ORDERS

NOTES

Reference or Subject

Transfers of provisions for masters from one school to another in schools maintained by Government from State Funds or Village School Funds

— s —

The proposals of the Inspector General of Education in his no 11155/82 dated 21-6-11 to Government are —

(1) There are no fixed scale for Schools

(2) A certain elasticity of provision seems necessary where both the number and character of the schools fluctuate and changes of scale have to be made as the circumstances of the localities change,

and (3) the existing arrangement may be allowed to be continued till the scale of each of these schools can be fixed

2 The statement that "there are no fixed ~~schools~~ scale for the schools" is not quite correct The establishment for each school is being ~~sanctioned~~ specifically sanctioned by Government fixing the rate of pay of each master and further new additions to it involving extra cost to Government are always made with the sanction of Government This sanctioned scale has been disturbed by the officers of the Education Department by transferring the provisions of one school to another

3 At a time when the Inspector General of Education was also Ex-Officio Secretary to Government in the Education department he used to make such transfers and that practice is being continued This power is now being exercised even by all the officers of the Inspection department The transfers made are such as to affect the provisions of several schools sometimes in one

GPB—6 ,00—9-8 09

ORDERS

NOTES

in one District and sometimes in several districts In the foregoing increases to the scale appear without any information as to the cause of the increase The result is, there are more plus entries in the Audit Registers without Corresponding minus entries The audit objections on this account are on the increase The explanations furnished, which are generally received very late are sometimes Confusing and the labour entailed in verifying them and making necessary alterations in the audit registers arises is enormous It is only to remedy these defects, which cannot be allowed to continue any longer, that the audit objection slips, enclosed by the Inspector General in his letter to government, were issued as a test case

4 Further as the existing State of audit registers did not permit the proper verification of the budget estimates of the Education Department a general remark as per extract

~~was~~ attached, was made in this office note on the Budget estimates of the Education Department for the year 1911-12

5 When the Inspector General is prepared to have scales fixed for the schools, it is not understood why he wants the existing flexible arrangements to be continued If as desired by him it ~~was~~ allowed to continue, the present audit difficulties cannot be remedied. The elasticity which the Inspector General wants can easily be attained without causing any audit difficulties by sending in proposition statements in a special form to Government at stated intervals As these proposition statements will not contain any increase in expenditure but only transfers of provisions from one school to another, the sanction of Government required will only be formal and it will enable the audit office to note the alterations

(1 B—8 000—23 7 08

ORDERS | **NOTES**

accurately and maintain a correct sanctioned scale. For these proposition statements the existing scale may be adopted as a starting point.

6 The Inspector General has not mentioned anything about having a provincial scale, but it has been suggested in the Secretariat Note A provincial scale in the case of a growing establishment having at present nearly 2,300 schools and 3500 masters will only enhance the present audit difficulties as may be seen from the following extract from the Madras A.D. manual, para 57

"(d) The fact must never be lost sight of that it is more difficult to audit one large establishment than to audit the same number of appointments split up into separate establishments whenever it is proposed to combine several establishments into one. the proposal

should be jealously
watched from this
point of view
"(e) It was proposed
to combine the process-
servers in each district
into one District
Establishment, and
this proposal was only
abandoned by Govern-
ment in G.O. No. 292,
Judicial, dated 3rd
March 1903, on a
representation of the
difficulties which
would arise, and
of the necessity for
keeping a series of
scale registers

127-11

(1 B—8 000—23 7 08

Extract of the Budget Notes of the Educational Department for 1911-12

General

It was not possible for the audit Department of this Office to verify the process for teachers and servants under Anglo Vernacular and Vernacular Schools with the audit Registers as there is no scale for the several schools and scores of transfers are often made from one School to another without reference to the scale of appointments for each school or even for the District as a whole Moreover such transfers are not even communicated to this Office in time In these circumstances the expenditure on this account does not easily admit of either the Budget check or even the usual audit checks being applied to it
